	Examiner	Art Unit	
	Gay Ann Spahn	3635	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

1. ☒ The amendment filed on 23 April 2007 under 37 CFR 1.312 has been considered, and has been:

- a) ☐ entered.
- b) ☐ entered as directed to matters of form not affecting the scope of the invention.
- c) ☐ disapproved because the amendment was filed after the payment of the issue fee.

Any amendment filed after the date the issue fee is paid must be accompanied by a petition under 37 CFR 1.313(c)(1) and the required fee to withdraw the application from issue.

- d) ☒ disapproved. See explanation below.
- e) ☐ entered in part. See explanation below.

The examiner objected to the title of the invention in the first Office Action mailed 27 January 2006 as not being descriptive of the invention. This gave the Applicant a chance to change the title of the invention to one that was more descriptive of the invention. However, on 30 June 2006, Applicant's filed a response to the first office action and chose not to amend the title of the invention to something more descriptive. Therefore, pursuant to the Manual of Patent Examining Procedure (MPEP) section 606.01, entitled "Examiner May Require Change in Title", which states that "[i]f a satisfactory title is not supplied by the applicant, the examiner may, at the time of allowance, change the title by examiner's amendment", the examiner changed the title of the invention to a title more descriptive of the patentable features of the invention. Since many examiners use the title of the invention as an aid in searching and since it is not required that the title of the invention reflect no more than the subject matter of the broadest claim, Applicant's "Amendment After Allowance Under 37 CFR 1.312" is not being entered.
